

AR & Hotspot software will be available during Spring Break!

AR and Hotspot software will be available during Spring Break, from March 9th – 18th! All students are encouraged to spend time reading books at their “just right” level, taking AR quizzes, and logging into their Hotspot software over the break.

Campus incentives:

List out here the incentives that students will receive for meeting a specified goal. For example, Students who take at least 4 AR test and had at least 1 hour of time on the hotspot software during the break will receive an ice cream or extra recess time.

Don't forget to maintain your accuracy in the software! If you have any questions, please contact your AR Zone facilitator, Hotspot facilitator or Blended Learning Spaces Teacher before going on your break.
