Traffic Flow

Pick up/Drop off

Student pick up/drop-off must occur only at the campus designated areas. Students may **NOT** be dropped-off along the sidewalk on Showplace lane or on the sidewalk by I-H 35 frontage road, nor can they be dropped-off outside the school perimeters.

Please see below for some clarification on the map:

1. Box with the number **1** signifies the area for AM and PM pick up/drop off place for parents using the drive thru option.
2. Box with the number **2** signifies the Rundberg access that will be used to exit the parking (**EXIT ONLY**).
3. Box with the number **3** signifies the area where parents can park if they wish to be park and walk their student to the lobby in the morning for drop off, and if they are parking to walk and pick up their student by the front glass doors, in the afternoon. In order to prevent traffic jams, these parents must enter the parking lot through the main parking lot entrance (I-H 35 frontage entrance) and exit the parking lot through the same place.
4. Box with the number **4** signifies the exit for all drive-thru vehicles that want to exit to I-H 35.

Student pick up

- Students may be picked up in front of the school building, and at designated pick-up areas at the assigned times.
- Parents must wait for their child inside their cars; this is intended to ensure the safe exit of our students and to increase efficiency in traffic flow.
- Parents, please be aware it is extremely important to display the child's name card on the windshield. You will receive your child's name card when you attend Meet the teacher so please save the date.
- If you choose to walk your student to the front of the school for pick up and drop off, you must park the car and walk the student to the front office as there will be no staff opening doors and crossing students in this area.
