## *Message from our School Nurse*

Parents,

**Thank you all for your amazing help with bringing in scholars to school. Here are some tips to help ensure the health and safety of all our scholars.**

1. Please ensure that medications **are not** being sent with students. All medications, whether over the counter or prescription, need to be counted by health aide and inputted for record management, as well as for the safety of your children.
2. **College prep** parents the clinic **does not** have oral medications for all scholars, if your child is needing meds such as Tylenol, ibuprofen, throat spray or cough drops you will need to bring it in and sign a form. **Without the forms no medication will be administered to your child.**
3. Scholars that are being sent home for illnesses will be sent home by Health Aide and will be called through our Clinic.
4. Parents, we are enforcing The Healthy kids Initiative at IDEA Carver. Our hope is to decrease the student body BMI percentage by 5% by the last day of school. We encourage hydration and healthy snacks as well as a healthy lifestyle. We are going to be sending healthy recipes on the Parent weekly from time to time as well as health tips! We hope that we can partner up to help meet this goal of becoming the healthiest district in the nation!
