IDEA CARVER ACADEMY PARENT WEEKLY

3RD - 5TH END OF THE YEAR FIELD TRIP

Scholars who meet the listed qualifications:

- 1) Perfect Attendance
- 2) No Office referrals

Will be eligible to attend a field lesson to **FIESTA TEXAS** on May 29, 2018. Perfect attendance will start counting March 19th - May 29th.

If scholars have a doctor's appointment, they must return with note that same day or be picked up after 10 am. **No Excuses!**

Message from the Health Aide

Water is a fluid that is part of your immune system, which helps you fight off illness. You need water to digest your food and get rid of waste, too.

Your body doesn't get water only from drinking water. Any fluid you drink will contain water, but water and milk are the best choices. Lots of foods contain water, too

How Much Is Enough?

Since water is so important, you might wonder if you're drinking enough. There is no magic amount of water that kids need to drink every day. Usually, kids like to drink something with meals and should definitely drink when they are thirsty. But when it's warm out or you're exercising, you'll need more. Be sure to drink some extra water when you're out in warm weather, especially while playing sports or exercising.

When you drink is also important. If you're going to sports practice, a game, or just working out or playing hard, drink water before, during, and after playing. Don't forget your water bottle. You can't play your best when you're thinking about how thirsty you are!

Your body can help you stay hydrated by regulating the amount of water in your system. The body can hold on to water when you don't have enough or get rid of it if you have too much. If your pee has ever been very light yellow, your body might have been getting rid of excess water. When your pee is very dark yellow, it's holding on to water, so it's probably time to drink up.

You can help your body by drinking when you're thirsty and drinking extra water when you exercise and when it's warm out. Your body will be able to do all of its wonderful jobs and you'll feel great!
